

IPOS Membership Committee Annual Report (2022)

February 14, 2022

Daisuke Fujisawa and Tom Hack (Co-Chairs)

IPOS Membership Committee

1. Membership Update:

The latest updated membership figures as of February 13, 2022 indicate that IPOS has 774 full members, which is an increase of 15.7% from 2021, and an all-time high! IPOS recorded a total of 226 new members in 2022, and a 4-year low lapse rate of 165 members. IPOS now has members from 111 countries - we are becoming a more fully international society!

The IPOS Board of Directors attributes the 2022 membership increase, in part, to the end of the COVID pandemic, and the strong efforts of the IPOS Board and IPOS membership to attract new members.

As for a breakdown of types of members and growth/decline compared to 2021 (**growth in red**):

1. **Active: 298 (+6.0%)**
2. **Active LMIC: 200 (+12.4%)**
3. **Early Career: 73 (+17.7%)**
4. Early Career LMIC: 11 (-35.3%)
5. **Member-In-Training: 50 (+42.9%)**
6. Member-In-Training LMIC: 4 (-50.0%)
7. **Associate: 43 (+19.4%)**
8. **Associate LMIC: 61 (+22.0%)**

Despite the record number of IPOS members, there was a drop in early career LMIC members and LMIC Members-In-Training.

In the past year, to enhance membership value, we have highlighted membership benefits in the Xchange, increased the number of free live webcasts to members, and provided additional free webcast recordings.
