

Survivorship SIG

Co-Chairs Prof Michael Jefford (Australia) and Dr Christina Signorelli (Australia)

One sentence of committee/group mandate: *Our goals are to build awareness of, and inform policy on, best practice psycho-oncology care in the post-treatment survivorship phase.*

Up to three key accomplishments since December 31, 2021:

1. Completed international survey of current psychosocial care practices for cancer survivors
2. Held 2 symposia at the World Congress (i) Improving psychosocial support for cancer survivors across the globe, and (ii) Survivorship Representation at IPOS World Congress Meetings: Abstract Review 2017-2021 (plus upcoming symposium at UICC World Cancer Congress)
3. Held two webinars on self-management education and support in survivorship, including Guest Speakers Prof Claire Foster and Dr Doris Howell

Two key initiatives underway for 2022:

1. Draft (several) manuscripts relating to the above symposia content
2. Progress development of resource-stratified guidelines...
