

# ROMANIAN ASSOCIATION FOR SERVICES AND COMMUNICATION IN ONCOLOGY

## Initiatives and priorities

❑ APSCO developed the first cancer distress screening app available on Android platform in Romanian and Hungarian. Joint copyright © Mitchell J. A. & Dégi L. Cs. Promoting self-managed care in part of our ongoing capacity building efforts.

❑ The IPOS Multilingual Core Psycho-Oncology Curriculum in Romanian was officially translated and adapted with APSCO's full support and collaboration.

❑ IPOS International Quality Standard of Cancer Care were translated into Romanian and Hungarian, and disseminated nationwide.

❑ APSCO is partner of the European project SPAC.

❑ Psycho-Oncology Newsletter

**Dr. Csaba L. Dégi**  
APSCO president

DISTRESS SCREENING APP

RESEARCH - PUBLICATION

## Vision and mission

❑ APSCO envisions itself as a LAB – FAB – APP non-profit organization, as promoted by the EC strategy on EU Research & Innovation Programs. We need research – innovation – and applications for the benefit of all cancer patients in Romania.

❑ We are in mission for psychosocial oncology advocacy, policy, communication, services, and standards of care in Romania.

❑ APSCO unreservedly endorses the IPOS International Quality Standard of Cancer Care and is a proud member of the International Psycho-Oncology Federation.
